PROFESSIONAL SUMMARY

Fullstack developer with 7+ years of experience building end-to-end web applications with **React/TypeScript** on the frontend and **Node.js (NestJS / Fastify)** on the backend. Comfortable designing REST and GraphQL APIs, integrating real-time features over WebSocket, and shipping services with Docker. Delivered software for large Russian enterprise clients (MosObIEIRTs, DEK, RESK) and built cross-platform mobile apps with React Native.

Business-minded, self-driven, and able to take features from idea to production independently.

Stimul8 EdTech Limited — Fullstack Developer

Nov 2025 — Apr 2026 · Moscow · stimul8.app

Building a mobile application that gamifies daily routines for kids (school, chores), along with its backend and admin panel.

- Designed and shipped an **AI homework assistant**, which significantly boosted retention and engagement
- Delivered a **digital goods marketplace** (avatars, stickers) that became an additional growth channel
- Contributed across the full stack: React Native client, NestJS + PostgreSQL backend, and admin dashboard

Stack: React Native, NestJS, TypeScript, PostgreSQL, Docker, WebSocket

Alphamatica LLC — ORPO Developer

Mar 2022 — Nov 2025 · Moscow · alphamatica.ru

Developing an electronic queue and video-consultation system for large enterprise customers (MosObIEIRTs, DEK, RESK).

- Built the React + TypeScript client for the queue and video-consultation platform
- Integrated **WebSocket** for real-time customer status updates
- Took part in launching **self-service kiosks** that noticeably reduced customer waiting time
- Collaborated closely with the backend team and UX designers

Stack: React, TypeScript, WebSocket, REST API, Node.js, PostgreSQL
